A healthy community is rooted in the soil of stable families, schools, bodies of governance, service agencies, and a cohesive local economy. Health and well-being reflect in qualities of resiliency in the face of challenge, life-giving connectedness to people and place, creative expression in home and work, and loyalty to community. Knowing that health and well-being are both individual and collective, all residents of Torrance County have the opportunity and responsibility to learn, grow and participate in making decisions that support abundant life in our shared home.
